Ruínas — da introdução à luta com o Dummy

Mapa em escala e aplicação real de cada elemento · nUndertale · 30 de outubro de 2026

Todas as imagens são capturas do jogo rodando (build de debug idêntico ao `nundertale_r8_build`), não montagens das artes. Cada sala foi fotografada com a câmera nos cantos e as fotos foram emendadas sem redimensionar, então o mapa mostra a organização real do cenário. Grub aparece nos pontos de entrada usados para as capturas.

Escala. Nas páginas de sala, 1 pixel do mundo = 0.2 mm (uma tela do jogo, 640x480, mede 128x96 mm). No mapa geral, 1 px = 0.057 mm. Posições e tamanhos vêm dos mapas gerados (`data/maps`).

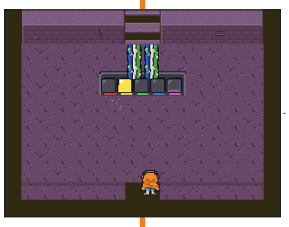

Marcadores. ■ objeto · ■ personagem · ■ examinar/placa · ■ save · ■ saída · ■ gatilho de cena (área tracejada). Paredes e pontos de entrada ficam de fora.

Rota: introdução (aviso, 10 cards, título) → R1 The Landing → R1a Registration → R1b Panel Hall → R2 Headless Lounge (luta com o Floofy) → R3 Entrance → R4 Switch Room → R5 Training Room (luta com o Fursuit Dummy). Todas as saídas da rota ficam no topo da sala; o mapa geral começa embaixo, na Landing, e sobe.
