NUNDERTALE

Undertale, except the danger isn't dying. It's liking it.

* Twelve years ago, the GAMERS won the war against the FURRIES and sealed them under Mt. Dew. Then they closed the curtains and went goblin mode.
* Now a gamer has fallen in, thirty minutes before his squad's Fortnite match. Every furry down there wants the same thing: for him to say "yes." Every hit makes him fluffier.

THE FALLEN GAMER

front · side · back (in-game 1x pixels, shown 3-5x)

GRUB

26 · gamer · NEET

Lives in his mom's basement and only leaves when the Mountain Dew runs out. Slipped on a Tide Pod and fell into the Underground. Never speaks. Openly hates furries. Knows suspiciously a lot about fursuit stitching.

He brought his own blanket.

THE FIRST FACES HE MEETS

FLOOFY

the welcome committee

A pastel flower fox with zero shame. Breaks Grub's fall, then tries to fluff him. Soft outside, all thorns inside.

"Here, we're all about good vibes~"

FURIELL

guardian of the Ruins

Used to run the biggest furry con on the internet. Holds your hand, bakes glitter Pop-Tarts, keeps a spray bottle for bad flowers.

"Do you like bwankets? I have forty."

BARKY

the alpha wolf, 23

Leader of the Shadow Fang Pack (membership: him). A gamer who said "yes" after two weeks of Pop-Tarts. Still has gamer flashbacks.

"Fear the Shadow Fang Pa- one more match, mom-"
